FINANCE OFFICE

2019 BUDGET MESSAGE FOR SAN MIGUEL COUNTY, COLORADO SOLID WASTE DISPOSAL DISTRICT

The 2019 budget represents San Miguel County Solid Waste Disposal District's continued commitment to the needs of the district residents, the continued level of quality service, and prudent fiscal management. The budget has been prepared in accordance with all applicable state and federal laws and internal policies.

Staff made every effort to objectively review and analyze each of their respective budgets in preparation for a recommendation to the Board of County Commissioners. In addition, the fiscal responsibility of staff comes from being committed to making wise spending decisions every day.

This budget is an important means of communication with the citizens and taxpayers. It will serve as a financial guide for the Board of Commissioners and staff through the 2019 fiscal year.

The voters of San Miguel County's Solid Waste Disposal District approved a county-wide mill levy increase up to .40 mills for the operation and maintenance of the district. The primary expenditures in this fund are the operational costs for the transfer station.

As adopted by the Board of Commissioners on December 19, 2018 the total budget for 2019 is \$100,685. This is a \$2,177 increase from the 2018 adopted budget.

Major financial highlights for 2019 include:

Property tax revenue will increase by \$47,417 in 2019 as a result of the voter-approved mill levy increase up to .40 mills.

Norwood transfer station costs were thoroughly analyzed and budgeted for accordingly.

HAZMAT clean-up project is included in the approved budget. This project is proving to be a valuable resource for County residents to properly dispose of their hazardous wastes.

Town of Telluride and Town of Mountain Village also contribute to the cost of the HAZMAT clean-up project.

BUDGET POLICIES/PROCEDURES

1. Six month year-to-date actual data is provided to the department heads in June of each year, along with a blank budget estimate form that reflects both revenue and expenditures to assist in the development of the next fiscal year budget.
2. Select department heads are requested to provide an estimate of where they see their revenues and expenditures being at the end of the current budget year. They are also asked to provide their best estimates of their revenues and expenditures for the next fiscal year. This data is returned to the finance office by the end of July.
3. The finance office compiles a mid-year budget update that is presented to the Board of County Commissioners (BOCC) in July for their review. If there is a need to amend a budget appropriation at mid-year, staff will prepare all necessary documentation for the public hearing process.
4. A preliminary estimated budget is compiled by the finance office and shared with the County Administrator and department heads by the middle of August. Budget review sessions are scheduled between the County Administrator, finance office, and department heads for late August and early September if necessary.
5. The preliminary notice of assessed valuation is received by August 25th, and the estimated property taxes are calculated for inclusion in the proposed budget.
6. Following budget meetings with staff, a revised proposed operating budget document is prepared and submitted to the BOCC, County Administrator, and department heads by the statutory deadline of October 15th.
7. A public advertisement is posted informing the public that the proposed operating budget has been provided to the BOCC, and is available for public inspection. A copy of the proposed operating budget is posted on the County's web site, and at two locations within the county.
8. A public, formal presentation is made to the BOCC at a regularly scheduled BOCC meeting in mid October to early November. This presentation includes budget highlights, graphs, and changes to the County's financial projections.
9. A second public session is scheduled with the BOCC in the later part of November allowing the public to provide comments and ask questions pertaining to the proposed operating budget for the next fiscal year. All public sessions are properly noticed within the County.
10. Financial reports showing the status of the current fiscal year budget, and estimated year-end projections, are provided to department heads and reviewed throughout the budget year with the County Administrator.
11. Following the public sessions, the final proposed operating budget is prepared and provided to the BOCC and County Administrator for review and approval at a regularly scheduled BOCC meeting in December.
12. Final Mill Levy Certifications are received by the County by December 15th per statutory requirement.
13. At the public meeting where the BOCC will review and approve the proposed operating budget for the next fiscal year, a supplemental budget for the current fiscal year is reviewed and approved, if there is a need to amend current year appropriations.

14. Following BOCC approval of the budget for the next fiscal year, the finance office compiles a formal budget document for submission to The Department of Local Affairs, by January 31st of the next budget year.
15. All appropriations lapse at the end of each fiscal year. If certain programs or projects that were budgeted in the current fiscal year will carry over into the next budget, the appropriations for these programs and projects will be re-budgeted in the proposed operating budget for the next fiscal year.
16. All monies received by the County, its agencies, departments and programs, must be deposited with the County Treasurer and included in the budget appropriations approved by the BOCC prior to being spent. The BOCC may authorize supplemental appropriations to the approved budget during the budget year. Grant funds received, during a budget year that were not included in the approved budget, will be included in a supplemental budget along with the appropriation of expenditures necessary to complete the program or project.

BUDGET BASIS

Annual budgets for governmental funds (General, Special Revenue, and Debt Service Funds) are prepared separately using the MODIFIED ACCRUAL basis of accounting. Modified accrual accounting is where revenues are recognized in the accounting period in which they became available and measurable, and expenditures are recognized in the accounting period when a liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

BUDGET & ACCOUNTING CONTROL

Once the Board of Commissioners adopts the budget, the financial accounting system is used as the major tool for monitoring activity. Monthly reports are prepared which allow the department heads and the county administrator to review the financial activities of the month by comparing actual expenditures and revenues against budgeted amounts.

Procedures for collecting, recording, and reporting revenues have been developed and will continue to be maintained. Staff is encouraged to aggressively pursue the collection of taxes, fees, and other types of revenues that are owed to the County.

Proper systems for recording, controlling, and reporting expenditures have been developed and will be maintained using the generally accepted accounting principles. Financial records are audited annually by a certified public accounting firm. In addition, internal control policies and practices are continually being reviewed to assure proper control of expenditures.
