The 2012 budget has been prepared in accordance with all applicable state and federal laws and internal policies. This document is an important means of communication with the citizens and taxpayers. It will serve as a financial guide for the Board of Commissioners and staff through the 2012 fiscal year. The Board of Commissioners act as the governing body to this special district.

As the budget was being developed, elected officials and department heads were well aware of the fiscal constraints that the County may be facing in the upcoming years. Staff submitted their requests accordingly. Every effort was made to objectively review and analyze this district’s budget and then a recommendation was given to the Board of Commissioners.

As adopted by the Board of Commissioners on December 16, 2011 the total budget for 2012 is $91,432. This is a $385 decrease from the 2011 adopted budget.

**Major financial highlights for 2012 include:**

- Property tax revenue will decrease by $2,971 in 2012 as a result of the assessed valuation decreasing by $15,472,470.
- The Tabor revenue limitation was effective with the calculation of the 2012 property tax revenue.
- Norwood transfer station costs were thoroughly analyzed and budgeted for accordingly.
- HAZMAT clean-up project is included in the approved budget. This project is proving to be a valuable resource for County residents to properly dispose of their hazardous wastes.
- Town of Telluride and Town of Mountain Village also contribute to the cost of the HAZMAT clean-up project.

Budget Policies/Procedures

1. Six month year-to-date actual data is provided to the department heads in early July of each year, along with blank current year estimate forms, and blank budget estimate forms (revenue and expenditure) for developing the next fiscal year budget.
2. Department heads are requested to provide an estimate of where they see their revenues and expenditures being at the end of the current budget year. They are also asked to provide their best estimates of their revenues and expenditures for the next fiscal year. This data is returned to the finance office by the end of the July.
3. Department heads are asked to provide requests for mid-year budget changes to the finance office, along with any posting changes required, by the middle of July.
4. The finance office compiles a mid-year supplemental budget request that is presented to the Board of County Commissioners (BOCC) after review by the department heads.
5. A preliminary estimated budget is compiled by the finance office and shared with the County Administrator and department heads by the middle of August. Budget review sessions are scheduled between the County Administrator, finance office, and department heads for late August and early September.
6. The preliminary mill certification is received by August 25th, and the estimated property taxes are calculated for inclusion in the proposed budget.
7. Following budget reviews with each department head, a revised proposed operating budget document is prepared and submitted to the BOCC, County Administrator, and department heads by the statutory requirement of October 15th.
8. A public advertisement is posted informing the public that proposed operating budget has been provided to the BOCC, and is available for public inspection. A copy of the proposed operating budget is posted on the County’s web site, and at two locations within the county.
9. A public, formal presentation is made to the BOCC at a regularly scheduled BOCC meeting in mid October to early November. This presentation includes budget highlights, graphs, and changes to the County’s financial system.
10. A second public session is scheduled with the BOCC in the later part of November allowing the public to provide comments and ask questions pertaining to the proposed operating budget for the next fiscal year. All public sessions are properly noticed within the County.
11. Financial reports showing the status of the current fiscal year budget, and estimated year-end projections, are provided to department heads, and reviewed throughout the budget year with the County Administrator.
12. Following public session, the final proposed operating budget is prepared and provided to the BOCC, County Administrator and department heads for review and approval at a regularly scheduled BOCC meeting, following receipt of the final Mill Levy’s for the County.
13. The final Mill Levy Certification is received by the County by December 15th, per statutory requirement.
14. At the public meeting where the BOCC will review and approve the proposed operating budget for the next fiscal year, the second supplemental budget for the current fiscal year is reviewed and approved.
15. Following BOCC approval of the budget for the next fiscal year, the finance office compiles a formal Budget Book for presentation to The Department of Local Affairs, by January 31 of the next budget year.
16. All appropriations lapse at the end of each fiscal year. If certain programs or projects that were budgeted in the current fiscal year will carry over into the next budget, the appropriations for these programs and projects will be re-budgeted in the proposed operating budget for the next fiscal year.
17. All monies received by the County, its agencies, departments and programs, must be deposited with
the County Treasurer and included in the budget appropriations approved by the BOCC prior to
being spent. The BOCC may authorize supplemental appropriations to the approved budget during
the budget year. Grant funds received, during a budget year that were not included in the approved
budget, will be included in a supplemental budget along with the appropriation of expenditures
necessary to complete the program or project.

**BUDGET BASIS**

Annual budgets for this special district are prepared using the MODIFIED ACCRUAL basis of accounting.
Modified accrual accounting is where revenues are recognized in the accounting period in which they became
available and measurable, and expenditures are recognized in the accounting period when a liability is incurred,
if measurable, except for unmatured interest on long-term debt, which is recognized when due.

**BUDGET & ACCOUNTING CONTROL**

Once the Board of Commissioners adopts the budget, the financial accounting system is used as the major tool
for monitoring activity. Monthly reports are prepared which allow the department heads and county
administrator to review the financial activities of the month by comparing actual expenditures and revenues
against budgeted amounts.

Procedures for collecting, recording, and reporting revenues have been developed and will continue to be
maintained. Staff is encouraged to aggressively pursue the collection of taxes, fees, and other types of revenues
that are owed to the County.

Proper systems for recording, controlling, and reporting expenditures have been developed and will be
maintained using the generally accepted accounting principles. Financial records are audited annually by a
certified public accounting firm. In addition, internal control policies and practices are continually being
reviewed to assure proper control of expenditures.
