RESOLUTION OF THE BOARD OF COMMISSIONERS
OF SAN MIGUEL COUNTY, COLORADO,
ADOPTION OF AN AMENDMENT TO THE SAN MIGUEL COUNTY LAND USE
CODE SECTION 5-29 MEDICAL AND RETAIL MARIJUANA FACILITIES &
ESTABLISHMENTS – INCLUDING PLANT COUNT LIMITS FOR BOTH PERSONAL
USE/RECREATIONAL AND MEDICAL MARIJUANA CULTIVATION ON
RESIDENTIAL AND NON-RESIDENTIAL PROPERTIES IN ALL ZONE DISTRICTS
IN UNINCORPORATED SAN MIGUEL COUNTY

Resolution 2018-005

WHEREAS, the primary purpose of these proposed Land Use Code (LUC) amendments is to set
and implement plant count limits on marijuana cultivation for both Personal Use/Recreational
and Medical Marijuana cultivation on Residential and Non-Residential Properties in all Zone
Districts in unincorporated San Miguel County (SMC) consistent with the provisions in House
Bill 17-1220, effective January 1, 2018, which are intended to stop diversion of legal marijuana
to the illegal market;

WHEREAS, the Colorado General Assembly’s “Legislative declaration,” Section 1 of H.B. 17-
1220, is adopted herein by reference, as the basis for the imposition of a LUC plant count
restriction on or in residential and/or in a non-residential property for cultivating both Personal
Use/Recreational and Medical Marijuana;

WHEREAS, it is proposed that the plant count limit for cultivating Personal Use/Recreational
Marijuana on Residential Property, as defined in this new state statute, is limited to not more
than twelve marijuana plants for Personal Use/Recreational use in all zone districts in
unincorporated San Miguel County. If a person wants to grow more than twelve marijuana plants
for Personal Use/Recreational use they would need to apply for and be approved and licensed by
the State DOR-MED and permitted and licensed by San Miguel County as a Retail Marijuana
Cultivation facility;

WHEREAS, it is proposed that a Medical Marijuana Patient or Primary Caregiver may grow up
to 12 marijuana plants on a Residential Property, however, it is also proposed that the LUC
amendment would include provisions and a process in the LUC whereby a Patient or Caregiver
could apply for and obtain County approval for an "extended plant count" for cultivating Medical
Marijuana on Residential Property. The "extended plant count" provision would allow a Patient
or Caregiver to exceed the 12 plant count limit to allow cultivation of up to but not more than 24
plants subject to meeting specific criteria through an Administrative review; twenty-four is the
maximum number of Personal Use/Recreational and/or Medical Marijuana plants that may be
grown on a Residential Property;

WHEREAS, the County Planning Commission (CPC) considered the proposed amendments to
LUC Section 5-29 concerning plant count limits at three public meetings in Norwood, Colorado,
on November 8, 2017, December 13, 2017, and January 10, 2018, respectively. The Planning
Commission at its public meeting held on January 10, 2018 unanimously recommended approval
to the Board of County Commissioners with one addition to clarify “that multiple residences on a property will be treated individually for plant count purposes”;

WHEREAS, it is proposed that the cultivation of private, unlicensed marijuana on "non-residential" property, i.e. property where there is not an established residential structure, is prohibited. Sheriff Masters and Deputy Covault have stated that in San Miguel County, the majority of the large scale, private grows are already being conducted on non-residential properties. It is this change to the LUC that is most needed if the County is going to stem the tide of the over cultivation of marijuana in San Miguel County;

WHEREAS, a copy of the proposed LUC amendment regarding plant count limits for Personal Use/Recreational and Medical Marijuana cultivation was referred to Steven Zwick, County Attorney, Sheriff Bill Masters, Deputy Dan Covault, and Dan Hotsenpiller, District Attorney for the 7th Judicial District, for their review and comment;

WHEREAS, in a December 21, 2017 email Dan Hotsenpiller, District Attorney, 7th Judicial District, provided comment on the proposed LUC amendments stating “Excellent job!, Seriously very clear and considers all lawful interests”, Mr. Hotsenpiller’s email identified three minor edits to the Enforcement section (all of which have been made by staff);

WHEREAS, in a December 22, 2017 email Deputy Dan Covault stated that the draft LUC is exactly what the Sheriff and he were hoping for to assist in enforcement measures;

WHEREAS, the Town of Norwood Board of Trustees provided their support of the proposed Land Use Code amendments in a January 22, 2018 letter stating that amending the LUC regarding plant count limits for residential and prohibiting cultivation on non-residential properties in all county zone districts, is a giant step in providing law enforcement the necessary tools they need to regulate the diversion of legal marijuana to the illegal market, and the amendment provides a process to accommodate those who may require an extended plant count for medical reasons through an administrative process;

WHEREAS, at the January 10, 2018 CPC meeting Jennifer Fox, Esq. presented a letter she had written to the County Planning Commission on behalf of her client(s), who are Medical Marijuana Patients or Caregivers, who are opposed to the proposed amendments to LUC Section 5-29. In her letter Ms. Fox states that the proposed amendment seeks to place numerous onerous, costly, unconstitutional and unenforceable restrictions on medical marijuana patients and caregivers to cultivate medical marijuana in San Miguel County;

WHEREAS, at the BOCC January 23, 2018 meeting Ms. Fox submitted a letter to the Board dated January 23, 2018 together with proposed revisions to the draft amendment to the County LUC Section 5-29 concerning plant count limits on the cultivation of Medical and Personal Use/Recreational Marijuana. As a part of this letter and proposed revisions to the LUC on behalf of her clients Ms. Fox proposed that the County adopt caps on cultivation of marijuana plants on or in in Residential Property of up to 49 plants per person and up to 99 plants per Residential Property;
WHEREAS, at their January 23, 2018 Public Hearing after hearing public comment on the proposed LUC amendment including statements from Jennifer Fox, Esq. the BOCC continued this Public Hearing to their next regular meeting to be held on February 7, 2018 in order to provide the County Attorney and County staff time to review the assertions made by Ms. Fox in her January 23, 2018 letter prior to taking a final action on this proposed LUC amendment;

WHEREAS, as a result of this additional review the County staff made several changes to the draft amendment that was considered by the BOCC at its January 23, 2018 Public Hearing. The changes that were made to the draft LUC amendment are specified in the February 7, 2018, Planning Director Memorandum to the BOCC and have been incorporated in the actual draft LUC amendment, the most substantial change is an acknowledgement that a Medical Marijuana Patient and/or Primary Caregiver may grow up to twelve marijuana plants on Residential Property without requiring their marijuana plants to be within a Locked and Enclosed Space as defined in HB 17-1220 and also as defined in this LUC amendment;

WHEREAS, in a February 6, 2018 letter to the BOCC, Ms. Fox restated her concerns regarding the proposed LUC amendment asking that the County Commissioners adopt in similar form the edited version of the proposed amendments to the LUC Section 5-29 that she provided to the Board on January 22, 2018. Ms. Fox in this letter to the BOCC again asserts that the provisions of HB 17-1220 do not provide the “legal enabling authority” for the County to enact marijuana plant count limits of the type contained in the proposed LUC Section 5-29;

WHEREAS, public notices included placing colored “block” ads in both the Telluride Daily Planet and in the Norwood Post; placing the agenda and required legal notice in the Norwood Post and also in the Telluride Daily Planet; placing colored meeting “flyers” in the Norwood, Placerville, Ophir and Telluride Post offices. A “flyer” was also posted in the US Bank lobby in Norwood. Colored meeting flyers were also posted in the designated locations in the various County buildings and offices. The agendas and the draft LUC amendment was also posted on the County website and on the Planning Department web page for both the County Planning Commission meetings and the Board of County Commissioner Meetings. A Public Hearing Notice was published in the Norwood Post on January 3, 2018 and published in the Telluride Daily Planet on January 5, 2018. Reference to all such notices are included in the Public Hearing Record, attached hereto as Attachment “B”;

WHEREAS, the Board of County Commissioners of San Miguel County, Colorado considered this LUC amendment, along with relevant evidence and testimony from the public, following public hearings on January 23, 2018 and February 7, 2018 and finds that the proposed LUC amendments meet the requirements set forth in Section 5-1802 of the Land Use Code and the applicable statutory provisions set forth in Title 30, Article 28, Part 1, C.R.S.;

NOW, THEREFORE, BE IT RESOLVED that the Board of County Commissioners of San Miguel County, Colorado, hereby unanimously approves the proposed amendments to LUC Section 5-29 pertaining to establishing marijuana plant count limits for both Personal Use/Recreational and Medical Marijuana cultivation on Residential and Non-Residential properties in all Zone Districts within unincorporated San Miguel County, as recommended by the County Sheriff, and the County Planning Commission, finding that the proposed amendments
are consistent with both the provisions and local authority given to Counties as provided for in HB 17-1220, effective January 1, 2018, and that this LUC amendment as drafted and attached hereto and incorporated herein by reference as Attachment A to this Resolution, is in a form consistent with the organizational format and style of the code as required by LUC Section 5-1802 Land Use Code amendments.

DONE AND APPROVED by the Board of Commissioners of San Miguel County, Colorado, on February 8, 2018. The amendment to LUC Section 5-29 set forth in Attachment A shall be legally effective as of 12:01 a.m., on February 13, 2018, (the day following the recording of this Resolution in public records of the San Miguel County Clerk and Recorder’s Office).

SECTION 5-29 MEDICAL AND RETAIL MARIJUANA FACILITIES & ESTABLISHMENTS – INCLUDING PLANT COUNT LIMITS FOR BOTH PERSONAL USE/RECREATIONAL AND MEDICAL MARIJUANA CULTIVATION ON RESIDENTIAL AND NON-RESIDENTIAL PROPERTIES IN ALL ZONE DISTRICTS IN UNINCORPORATED SAN MIGUEL COUNTY

5-2901 A. Purpose of Section

The Purpose of the Medical and Retail Marijuana Facilities and Establishments Section is to set forth the general requirements, review procedures, notice provisions and review standards for locating and allowing both Medical and Retail Marijuana Facilities and Establishments (Medical Marijuana Optional Premises Cultivation Operations, Medical Marijuana Infused Products Manufacturing and Retail Cultivation Facility and Retail Production Manufacturing) in unincorporated areas of San Miguel County that are eligible for licensing under the State of Colorado and San Miguel County licensing authority. The County is aware of concerns expressed by some individuals that allowing marijuana establishments may expose them to public safety risks and may also change or alter the character of their neighborhood or the community. In considering these concerns it is the County’s position that the most effective way to control marijuana use in the community and to address public safety concerns is to regulate it. In addition to having stringent state and local licensing requirements for both medical and retail marijuana establishments the intent of this section is to strike a reasonable balance of allowing regulated marijuana establishments in limited locations through a thorough public review process that will not expose residents in our residential neighborhoods and in rural areas to safety risks and or dangerous situations.

Through citizen-initiated measures, Colorado voters provided its citizens protections for the cultivation and use of medical marijuana in 2000 and personal use/recreational marijuana in 2012. One of the reasons behind these citizen-initiated measures in addition to “legalizing” marijuana, was to treat and regulate personal use/recreational marijuana similar to the regulation of alcohol. The authority for marijuana cultivation for both personal use/recreational and medical marijuana is generally limited to six plants per person, some provisions allow individuals to grow more plants for medical purposes. In the medical marijuana code, a Medical Marijuana Patient (“Patient”) can grow an “extended plant count” if his or her physician makes a recommendation that the Patient has a medical necessity for more than six plants. A Primary Caregiver can grow medical marijuana for each of the patients that he or she serves up to a total of five patients. The State Health Agency (CDPHE) may allow a primary caregiver to serve more than five patients in exceptional circumstances.

The constitutional provisions for both medical and recreational marijuana provide protections for personal marijuana cultivation, but these provisions are silent on
the questions of the time, place, and manner, where marijuana plants may be
grown or processed for medical or recreational use.

The extended plant count for Patients and Primary Caregiver provisions have
created a situation in which individuals are cultivating large quantities of
marijuana in unincorporated San Miguel County.

The County is setting plant count limits for both Medical and Personal
Use/Recreational Marijuana cultivation on both residential and non-residential
properties in all County Zone Districts in accordance with H.B.17-1220 in an
effort to reduce the amount of legally grown marijuana that is being diverted to
the illegal market.

**Implementation of Plant Count Limits to Stop Diversion of Legal Marijuana
to the Illegal Market**

In adopting the Land Use Code (LUC) plant count restrictions for personal use/
recreational and medical cultivation operations on or in residential and non-
residential properties the Board of County Commissioners (BOCC) does hereby
specifically find and determine that significant quantities of medical marijuana are
being grown by both Medical Marijuana Patients and Primary Caregivers on or in
both residential and non-residential properties within unincorporated San Miguel
County (SMC). The BOCC also finds that such excessive marijuana plant
cultivation by Patients and Primary Caregivers contributes to the unregulated
“gray” market for medical marijuana product and negatively affect’s county and
state approved and licensed marijuana operations and facilities, since such
unlicensed operations do not bear the costs associated with compliance with state
and county regulatory requirements. Large scale unregulated marijuana
cultivation sites in unincorporated San Miguel County create a public safety issue
and are a public nuisance. The purpose of setting plant count limits on or in
residential and non-residential properties for personal use/recreational and
medical marijuana cultivation in all zone districts is to set reasonable limits
through plant counts restrictions on unlicensed, non-regulated, marijuana
cultivation as provided for and consistent with the authority provided by H.B. 17-
1220, effective January 1, 2018, to stop and or reduce the diversion of legal
marijuana to the illegal market.

**5-2902 Plant Count Limits**

**A. Plant Count Limit for Personal Use/Recreational Marijuana on Residential
Property**

Not more than twelve plants, including not more than six mature plants, shall be
cultivated at any time within any Residential Property, as defined herein, unless
the Retail Marijuana Cultivation Facility or Establishment growing recreational
marijuana has obtained the applicable state and county marijuana cultivation
facility or establishment licenses and any applicable County Special Use Permit
and or Land Use Code (LUC) approvals. It is unlawful for a person to knowingly cultivate, grow, or produce more than twelve marijuana plants for personal recreational use or in a residential property; or knowingly allow more than twelve marijuana plants to be cultivated, grown, or produced on or in a residential property. Multiple residences on a property will be treated individually for plant count purposes.

B. Plant Count Limit for Medical Marijuana Cultivation on Residential Property

Not more than twelve plants, including not more than six mature plants, shall be cultivated at any time within any Residential Property, as defined herein, unless the subject Residential Property has been approved by San Miguel County for a Patient or Primary Caregiver to have an “Extended Plant Count” or unless the Medical Marijuana Cultivation Facility or Establishment has obtained the applicable state and county marijuana cultivation facility or operations licenses and any applicable County Special Use Permit and or LUC approvals. Multiple residences on a property will be treated individually for plant count purposes.

Patients and Primary Caregivers, registered with Colorado Department of Health and Environment (CDPHE), may cultivate more than twelve plants but not more than twenty-four plants on a Residential Property subject to County Administrative Approval of an “Extended Plant Count” to cultivate medical marijuana in excess of the twelve plant count limit on Residential Property located within unincorporated SMC subject to the following. Any such extended medical marijuana cultivation located on Residential Property within unincorporated SMC may not exceed the twelve plant count grow limit unless:

1. The Medical Marijuana State issued card holder, including either a medical marijuana patient or a primary caregiver, has obtained San Miguel County Administrative Approval for an Extended Plant Count over twelve (12) plants but not more than twenty-four (24) marijuana plants on a Residential Property, as defined herein.

2. Required State CDPHE license information for a San Miguel County Extended Plant Count that is consistent with the CDPHE state issued License number, License holder name, address of the cultivation, site and the number of marijuana plants to be grown is consistent with the CDPHE licensing. Plant count verification will be determined by the San Miguel County Sheriff or his designee through the state registration data base CRS 25-1.5-106(7)(e)(III).

3. A Patient or Primary Caregiver must register with the Colorado Department of Revenue (DOR), the state licensing authority.

4. Information obtained from the CDPHE marijuana registration and/or the DOR state licensing authority data base, which is confidential under Colorado law, will only be used for code compliance purposes.

5. A San Miguel County Extended Plant Count fee may be charged; such fee may include an annual administration fee plus a fee for each plant over 12

Attachment A /Page 3
plants, as set by Board resolution. Fees may be charged for each growing season, regardless of age of the plant. A compliance tag may be issued for each extended plant.

6. A Primary Caregiver’s cultivation of his or her personal marijuana, whether classified as personal use/recreational or medical, is included and counted in determining the maximum number of plants allowed on a Residential Property, which on Residential Property is no more that twelve or no more than twenty four if the County has authorized an “extended marijuana plant count”.

C. **Cultivation of Medical or Personal Use/Recreational Marijuana on “Non-residential” Property**

The cultivation of personal use/recreational unlicensed marijuana by persons, Patients and/or Primary Caregivers on Non-residential Property, for personal use/recreational or medical purposes, where there is not an established residential structure, is **prohibited**.

D. **General Standards for both Medical and Recreational Marijuana Cultivation**

1. Any and all extended plant count medical and all personal use/recreational marijuana cultivation shall be grown or produced in an Enclosed and Locked Space as defined herein. Enclosed and Locked Spaces may include dwelling units and other primary structures.

2. No person(s) may engage in marijuana cultivation or production in a manner that adversely affects the health or safety of neighboring or nearby property owners, to include but not limited to:
   a. Having visibility of plants from the exterior of the structure(s) or from a public road or public place; no form of signage is allowed.
   b. Emitting light pollution, glare or brightness of lighting that impacts an adjoining or neighboring property owner or resident.
   c. Causing excessive noise or odor in a residential area.

E. **Enforcement**

Marijuana production prior to the adoption of these regulations that exceeded the maximum plant count limits set forth herein shall not be considered to be a legal pre-existing non-conforming use for purposes of §30-28-120, C.R.S. There will be no “grandfathering” of the number of plants that personal use/recreational grows, Patients or Primary Caregivers already possess prior to the adoption of these regulations.

Persons who cultivate medical and/or recreational marijuana in excess of the plant count limits set forth in LUC Section 5-29 on Residential Property, as defined herein, and on non-residential property are subject to criminal prosecution for violation of §18-18-406(3)(a)(I)(II), C.R.S., as it may be amended in future, or
under any other applicable statute. This marijuana plant count limitation
requirement may be enforced by the San Miguel County Sheriff’s Office and may
be criminally prosecuted by the District Attorney’s Office for the Colorado
Seventh Judicial District.

5-2903 Department of Revenue Marijuana Enforcement Division (DOR MED) and
Local Licensed Medical and Retail Marijuana Facilities and Establishments

These general standards are intended to cause such licensed establishments to be
located and developed so they blend into the rural ranching and agricultural
landscape, are not highly visible or have the location of these facilities readily
apparent to neighboring landowners and the general public. This is proposed to be
accomplished by requiring a Two-Step Special Use Permit Review process,
requiring increased noticing requirements, including specific time, place and
manner, restrictions limiting the location, prescribing distance requirements from
Schools, and residential areas, setting size and scale limits on the operations,
prohibiting signage, and potentially limiting the number of allowed marijuana
establishments within the unincorporated areas of the county. Section 5-29, with
the exception of Section 5-2910 Definitions, does not apply to licensed marijuana
establishments within the Ilum Industrial Park where Marijuana Facilities and
Establishments are allowed by right subject to the applicable provisions in the
Lawson Hill PUD Land Use Matrix and Section 5-2910 Definitions.

5-2904 General

Medical Marijuana Optional Premises Cultivation Operations, Medical Marijuana
Infused Products Manufacturing, Medical Marijuana Centers and Retail
Cultivation Facility, Retail Production Manufacturing, Retail Testing Facility and
Off Premises Storage of Retail Marijuana Facility are uses allowed in the Low
Intensity Industrial (I) Zone District in the Ilum Valley portion of the Lawson
Hill PUD by Administrative Review.

Medical Marijuana Optional Premises Cultivation Operations, Medical Marijuana
Infused Products Manufacturing and Retail Cultivation Facility and Retail
Production Manufacturing may be allowed subject to approval of a Two-step
Special Use Permit application in the Forestry, Agriculture and Open (F) Zone
District, the Wright’s Mesa (WM) Zone District and the Wright’s Mesa Rural
Agricultural (WMRA) Zone District.

Marijuana Facilities/Establishments are not allowed within the Wright’s Mesa
Master Plan Norwood Future Land Use Plan area.

A Medical or Retail Marijuana establishment may not operate until it is duly
licensed by the state licensing authority and approved and licensed by San Miguel
County.
The County Retail and Medical Licensing Standards, which are separate documents, shall establish the number of marijuana facilities allowed in the F, WM, and WMRA at any given time.

5-2905 Review Procedures
All applications for Facilities or Establishments to be located within the Forestry, Agriculture and Open (F), Wright’s Mesa (WM) and Wright’s Mesa Rural Agricultural (WMRA) Zone Districts are subject to a Two-step Planning Commission and Board of County Commissioner review. The process will consider the zoning, type, location, size and scale, the proximity to a Residential Area, and will be reviewed for compliance with the provisions and the standards set forth herein, as well as the standards of the applicable Zone District.

5-2906 Application Requirements

A. Pre-application Conference with Staff

Prior to the submittal of an application for a marijuana facility the applicant shall schedule a pre-application conference with the Planning Department staff. The applicant will provide information on the proposed facility, including the location. Staff may conduct a site visit to the proposed location to determine what specific issues may need to be addressed in addition to the following General Requirements.

B. General Requirements

1. The use must comply with all applicable county and state regulations including but not limited to state and local licensing regulations for Facilities and Establishments.
2. Retail Marijuana Stores and Medical Marijuana Centers are prohibited within the unincorporated areas of the County, except as an Accessory Use to a permitted and licensed Retail Marijuana or Medical Cultivation facility or Retail or Medical Production Manufacturing facility within the Ilium Industrial Park.
3. The use shall be located within a building or Substantial Greenhouse and shall be designed to blend into the surrounding rural landscape.
4. Storage of Equipment. All equipment must be stored inside the structure or within an enclosed fenced area.
5. Water. The applicant must demonstrate a legal and physically adequate water supply for the proposed use. Applicant must complete the State of Colorado, Office of the State Engineer Water Supply Information Summary form and submit this form with the application for a Special Use Permit. This completed form will be referred by staff to the Office of the State Engineer, Division of Water Resources for review and comment.
6. The following must be addressed as part of any application:
   a. Site Plan: The site plan shall show the location of the building
containing the licensed premises and provide distances from the building to adjacent buildings, describe all existing uses within the building and all adjacent buildings, parking spaces, property lines, and physical land features, such as streams, driveways, and roadways.
b. Location Plan. The location plan shall show all uses located within one-half (½) mile of the property boundary line of the premises on which the Retail or Medical Marijuana Establishment is located, including, but not limited to: any public or private preschool or elementary, middle, junior high, or high school; the campus of any college, university, seminary, or residential child care facility; or a drug or alcohol rehabilitation center. The distance measurement shall be a direct line between the closest point of the premises’ boundary and the closest point on the neighboring lot or parcel containing the specified use.
c. Building Plan. The plans for the interior of the Marijuana Establishment shall include a detailed floor plan layout and information needed to demonstrate compliance with the Local Licensing standards and the applicable requirements of the County’s adopted Building Code(s).
d. Location of existing residential structures within ½ mile.
e. Number of proposed employees, both permanent and temporary.
f. A waste disposal plan.
g. A noxious weed control plan.
h. An odor abatement plan designed to keep all odors from the proposed use from emanating beyond the subject property lines to prevent impacts on adjacent properties.

C. Scenic Quality Mitigation Plan

1. A plan for mitigation of visual impacts or other appropriate aesthetic impacts of the proposed access, structure(s), fencing, landscaping, and ancillary site improvements and use to achieve the goal set forth in Section 5-2301 A. Purpose.
2. Visual mitigation techniques such as coloring, screening and landscaping. Use of natural colors and native vegetation is encouraged.
3. Provide a lighting plan. All exterior lighting shall be either directed toward the ground or the surface of a building. Lighting shall be shielded to prevent direct visibility of light bulbs from off-site. Motion detector security lighting may be approved if the lights are fully shielded and down lighted. High intensity sodium vapor and similar lighting is prohibited.
4. Signs. No advertising or identification sign is permitted anywhere upon or attached to the facility or property.
5. The level of mitigation required will depend on the location of the proposed facility in relation to topographic features, important visual features, proximity to residential neighborhoods and other sensitive visual areas. Placement of structures in treed or screened areas rather than open
meadow areas is preferred in order to reduce the visibility of such facilities to the public to the maximum extent reasonably feasible.

D. Area and Bulk Requirements

1. Minimum Lot Area: 5 acres. The minimum lot area requirement for a Medical Marijuana Infused Product Manufacturer and/or a Retail Marijuana Products Manufacturing Facility shall conform to the Area and Bulk requirements of the underlying zone district. Marijuana Product Manufacturing may also be considered through a Two-step SUP Review process on legally created substandard sized parcels if the application meets all other applicable Land Use Code requirements.

2. Maximum Size for a Proposed Building or Greenhouse: 3,000 square feet. The maximum square footage includes all marijuana related uses whether a single use or combined uses. Parcels 35-acres or larger may be allowed up to three separate 3,000 sq. ft. structures depending on the parcel location, size and the applicants ability to comply with all applicable standards.

3. Setbacks:

   a. A minimum setback for a marijuana cultivation facility is 50 feet from all property lines regardless of zone district.

   b. In addition the following setbacks shall also apply:

      (i) Any public or private preschool or elementary, middle, junior high, or high school; the campus of any college, university, seminary, or licensed residential child care facility; or a drug or alcohol rehabilitation center must be located a minimum of one-half (½) mile from the nearest property line of the parcel. The distance measurement shall be a direct line between the closest point of the structure and the closest point on the neighboring lot or parcel upon which any of the above uses are located.

      (ii) Setbacks from a private camp or recreational facility frequented by minors: a minimum of 1,000 feet from the nearest property line of the land. The distance measurement shall be a direct line between the closest point of the structure and the closest point on the neighboring lot or parcel upon which any of the above uses are located.

      (iii) Setbacks from Residential Areas: New facilities may not be located within one-half (½) mile of a Residential Area,
c. Setbacks may be increased or decreased during the review and evaluation of the Special Use Permit.

5-2907 Noticing Requirements

Two-step reviews require that the notice to adjacent and affected property owners include the date, location and contact information for the time of the public meeting. The notice shall also include a provision that encourages the adjacent and affected property owners to provide written comments no later than one-week prior to the meeting date in order to be included in the meeting packets, although comments will be accepted up to the public meeting date.

The following noticing procedures shall apply:

1. The owners, as recorded in the records of the county, of any land adjacent to or located within one-half (½) mile of any portion of the boundary of the parcel or tract containing the subject site and owners of each parcel of real property adjacent to or through which the designated Access Road extends from the nearest public road. Such notice shall be sent by the applicant or Planning Department at the applicant's expense at least 20 days prior to the scheduled meeting date. Email notice to adjacent and affected property owners is encouraged if Email addresses are available from the County Assessor's Office. Persons notified and the distance of notice may be increased at the discretion of the County based upon size and scale of the proposed Facility, surrounding land use pattern and perceived impacts.

In addition to the required written notice under this provision, the applicant shall make a good faith effort (at a minimum contacting the County Planning Department and checking the records of the County Clerk and Recorders Office) to ascertain if any of the landowners required to be provided written notice, as part of an application, are also members of a condominium association or homeowner's association. If the result of the good faith examination identifies the existence of such condominium association or homeowner's association, the applicant shall provide written notice to these associations in the same manner as other landowners. Email notice to these associations is encouraged if Email addresses are available from the County.

2. The public notice shall include the following:

   (a) A description of the location of the facility (including a legal and practical locational description and a vicinity map), a general site plan, a vicinity map which includes the designated Access Road to the facility, and the proposed activity under review.

   (b) Time and place of the public meeting.
(c) The name and address of the applicant and/or its designated agent, and a statement that additional information may be obtained from the Planning Department.

3. Posting of notice shall be made by the applicant by posting a sign (to be obtained from the County) in a conspicuous place on the property or closest public roadway at least 20 days prior to the scheduled meeting date.

4. The applicant shall present proof of such notice by submitting a copy of the letter and a list of the landowners notified, together with an affidavit attesting to the mailing of such notice executed by the person responsible for providing such written notice, to the Planning Department.

5-2908 Commencement, Duration and Modification of Special Use Permit

The Special Use Permit shall become effective on the date of written approval by the County.

Special Use Permits are issued to the applicant and do not run with the land.

If an applicant desires to modify the subject Facility by changes to equipment, site layout, approved operating plan, etc. an amendment to the original application shall be submitted for review and approval. The Planning Department shall determine whether the modification has substantial impacts or is considered a minor amendment pursuant to County adopted standards for Medical and Retail Marijuana uses.

Special Use Permit approval shall only be valid as long as the applicant holds a current State and County License for the approved use.

5-2909 Disposal of Marijuana

Marijuana waste shall be stored, secured, and managed in accordance with applicable state laws, including but not limited to rules promulgated by the Colorado Medical Marijuana Enforcement Division and the Colorado Department of Revenue-Marijuana Enforcement Division (DOR-MED) in effect and as amended from time to time hereinafter.

5-2910 Definitions

Enclosed
Means a permanent or semi-permanent area covered and surrounded on all sides. Temporary opening of windows and doors or the temporary removal of a wall or ceiling panels does not convert the area into an unenclosed space.

Attachment A /Page 10
**Extended Plant Count**
Means County approval given to either a Medical Marijuana Patient or a Primary Caregiver to allow a plant count over twelve (12) marijuana plants but not more than twenty-four (24) plants on a Residential property, which shall only be applicable for Patients whose physicians have recommended such an extended plant count as being medically necessary to address the Patient's debilitating medical condition.

**Local Licensing Standards**
Means Local Licensing Standards as adopted and amended by the Board of County Commissioners.

**Locked Space**
Means secured at all points of ingress or egress with a locking mechanism designed to limit access, such as a key or combination lock.

**Medical Marijuana**
Means marijuana that is grown and sold pursuant to the Medical Code and includes seeds and Immature Plants.

**Medical Marijuana Business**
Means a Medical Marijuana Center, a Medical Marijuana Infused Product Manufacturer, or an Optional Premises Cultivation Operation.

**Medical Marijuana Center**
Means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-402 C.R.S., and sells medical marijuana to registered patients or primary caregivers as defined in Article XVIII, Section 14 of the Colorado Constitution, but is not a primary caregiver.

**Medical Marijuana Infused Product**
Means a product infused with Medical Marijuana that is intended for use or consumption other than by smoking, including but not limited to edible product, ointments, and tinctures. Such products shall not be considered a food or drug for purposes of the “Colorado Food and Drug Act,” part 4 of Article 5 of Title 25, C.R.S.

**Medical Marijuana Infused Product Manufacturer**
Means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-404, C.R.S.

**Medical Marijuana Patient (Patient)**
Means a person who has applied for and is entitled to receive a registry identification card with the Colorado Department of Public Health and Environment.

**Non-residential Property**
Means all other property than Residential Property as defined herein.
**Optional Premises Cultivation Operation**
Means a Person licensed pursuant to the Medical Code to operate a business as described in section 12-43.3-403, C.R.S.

**Primary Caregiver**
Means a person who is 18 years of age or older who has significant responsibility for managing the well-being of a patient who has a debilitating medical condition. Primary caregivers who cultivate medical marijuana for their patients must register with CDPHE and the DOR-MED. In order to be a primary caregiver who cultivates medical marijuana for his or her patients or transports medical marijuana for his or her patients, he or she shall also register with the state licensing authority and comply with all local laws, regulations, and zoning and use restrictions.

**Personal Use/Recreational Marijuana**
Means all parts of the plant of the genus cannabis whether growing or not, the seeds thereof, the resin extracted from any part of the plant, and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or its resin, including marijuana concentrate that is cultivated and/or consumed by a person twenty-one years of age or older for personal use by persons twenty-one years of age or older, but not for resale to others. Such Marijuana does not include industrial hemp.

**Residential Area**
Means an area as depicted on the maps attached as Exhibit I to this Section. These mapped areas may be amended as necessary by the County. New licensed marijuana facilities may not be located within one-half (½) mile of a Residential Area. A Residential Area may be zoned something other than WM, WMRA and F.

**Residential Property**
Means a single unit providing complete independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking, and sanitation. “Residential Property” also includes the real property surrounding a structure, owned in common with the structure that includes one or more single units providing complete independent living facilities.

**Retail Marijuana**
Means all parts of the plant of the genus cannabis whether growing or not, the seeds thereof, the resin extracted from any part of the plant, and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds, or its resin, including marijuana concentrate that is cultivated, manufactured, distributed, or sold by a licensed Retail Marijuana Establishment. “Retail Marijuana” does not include industrial hemp, nor does it include fiber produced from stalks, oil, or cake made from the seeds of the plant, sterilized seed of the plant which is incapable of germination, or the weight of any other ingredient combined with marijuana to prepare topical or oral administrations, food, drink, or other product.

**Retail Marijuana Cultivation Facility**
Means an entity licensed to cultivate, prepare, and package Retail Marijuana and sell Retail Marijuana to Retail Marijuana Establishments, but not to consumers.
Retail Marijuana Establishment
Means a Retail Marijuana Store, a Retail Marijuana Cultivation Facility, a Retail Marijuana Products Manufacturing Facility, or a Retail Marijuana Testing Facility.

Retail Marijuana Product
Means a product that is comprised of Retail Marijuana and other ingredients and is intended for use or consumption, such as, but not limited to, edible product, ointments and tinctures.

Retail Marijuana Products Manufacturing Facility
Means an entity licensed to purchase Retail Marijuana, manufacture, prepare, and package Retail Marijuana Product, and sell Retail Marijuana and Retail Marijuana Product to other Retail Marijuana Products Manufacturing Facilities and to Retail Marijuana Stores, but not to consumers.

Retail Marijuana Store
Means an entity licensed to purchase Retail Marijuana from a Retail Marijuana Cultivation Facility and to purchase Retail Marijuana Product from a Retail Marijuana Products Manufacturing Facility and to sell Retail Marijuana and Retail Marijuana Product to consumers.

Retail Marijuana Testing Facility
Means a public or private laboratory licensed and certified, or approved by the Division, to conduct research and analyze Retail Marijuana, Retail Marijuana Products and Retail Marijuana Concentrate for contaminants and potency.

Substantial Greenhouse
A solid, secured structure constructed to the design requirements for imposed loads (e.g., wind, snow, seismic activity) as required by the International Building Code. The exterior wall and roof coverings must be materials such as concrete, glass, metal, wood, polycarbonates or any such material that is tested and approved for such use. A hoop house, high tunnel or other similar structure that is covered or uses a membrane or a soft pliable sheet, i.e. plastic sheeting, visqueen, tarps, canvas, polyethylene films or similar materials is NOT a Substantial Greenhouse for this definition.
