SERVSAFE®: SERVING SAFE FOOD

WHAT IS SERVSAFE®?

ServSafe® is a nationally recognized course developed by the National Restaurant Association as a comprehensive treatment of the subject of food safety.

WHO SHOULD ATTEND?

Food Service Managers who are not certified by an accredited Food Safety Course. The Colorado Retail Food Establishment Rules and Regulations state that a manager needs to be on hand who has passed a certified food safety program. Class space is limited. Registration, first come first serve basis.

WHY ATTEND?

ServSafe® participants who score 75% or above on the exam, become certified and are qualified to become instructors of food handlers. Participants who score 90% or above, become certified and are eligible to become ServSafe® Certification Instructors for their own organization/company. An added bonus is that under the new code this certification may be able to lower your risk assessment score which may result in fewer visits from your County Health Sanitarian.

ServSafe® is a registered trademark of the National Restaurant Association Educational foundation (NRAEF), used under license by National Restaurant Solutions, LLC.
