**\* THIS ORDER SHALL RESCIND AND REPLACE ALL PREVIOUS ORDERS \***

**LIMITING GATHERINGS OF PEOPLE  
AS NECESSARY TO PROTECT PUBLIC HEALTH  
(SHELTER IN PLACE)**

Pursuant to its legal authority set forth in Colorado Revised Statutes §§ 25-1-506, 25-1-508 and other applicable authority, the Director of the San Miguel County Department Health and Environment ("Public Health Director") has the duty to investigate and control the causes of epidemic or communicable diseases and conditions affecting public health and to establish, maintain, and enforce isolation and quarantine, and in pursuance thereof, and for this purpose only, to exercise physical control over property and over the persons of the people within the jurisdiction of the agency as the agency may find necessary for the protection of the public health.

**FINDINGS**

1. Coronavirus Disease (COVID-19) was first detected in Wuhan, China in late 2019, and since then has spread to over 60 countries including the United States. As of this Order, there are 183 known positive cases of COVID-19 in Colorado in 19 out of 64 counties. Only 1,790 people in the state have been tested, there have been two fatal cases, and there is every expectation that more cases will be diagnosed.
2. While San Miguel County does not have a confirmed positive case, our local medical experts believe that with medical certainty they are treating patients with this COVID-19 and that extreme medical testing limitations at the local, state and federal level is the reason for the lack of information regarding diagnosis in our community.
3. COVID-19 is a respiratory illness transmitted like other respiratory illness through person-to-person contact or by contact with surfaces contaminated with the virus. Persons infected with COVID-19 may become symptomatic anywhere from two to fourteen days after exposure. Symptoms include fever, cough or shortness of breath or difficulty breathing.
4. Individuals with serious chronic health conditions and older adults are most at risk

for becoming very ill with this disease. Medical staff at the Telluride Medical Center report that they are treating at least three pediatric patients suspected to have COVID-19.

5. The San Miguel County Public Health Medical Officer and Deputy Medical Officer report that expert, peer-reviewed sources indicate that at this time, the only effective way to combat COVID-19 is with significant travel restrictions and reducing transmission (e.g. quarantine and isolation).

6. On March 10, 2020, the Governor of Colorado declared a State of Emergency related to the presence of COVID-19 in the State. CDPHE has confirmed that COVID-19 continues to spread throughout the State of Colorado.

7. On March 13, 2020, the President of the United States declared a National Emergency due to COVID-19.

8. A significant number of Coloradans are at risk of serious health complications, including death, from COVID-19. Although most individuals who contract COVID-19 do not become seriously ill, persons with mild symptoms and asymptomatic persons with COVID-19 may place other vulnerable members of the public at significant risk. A large surge in the number of persons with serious infections can compromise the ability of the healthcare system to deliver necessary healthcare to the public. Colorado is experiencing a rapid increase in COVID-19 transmission that threatens the health of residents and risks overwhelming the healthcare system in the state of Colorado.

9. Limiting the number of people who may gather in the unincorporated areas of the county and within all municipalities within the territorial limits of the county is necessary for the protection of public health. The age, condition and health of a significant portion of the population in San Miguel County places it at risk of serious health complications, including death, from COVID-19. Although most individuals who contract COVID-19 do not become seriously ill, persons with mild symptoms and asymptomatic persons with COVID-19 may place other vulnerable members of the public at significant risk. A large surge in the number of persons with serious infections can compromise the ability of the healthcare system, particularly in the high-country counties currently affected by community transmission, to deliver necessary healthcare to the public.

10. The limitations on large gatherings and use of social distancing decreases the risk of COVID-19 transmission to our most vulnerable populations and is especially important for people who are over 60 years old and those with chronic health conditions due to their higher risk of severe illness and death from COVID-19. This Order will reduce the likelihood that many individuals will be exposed to COVID-19 at a single event, and will, therefore, slow the spread of COVID-19 in our communities.

11. The Public Health Director has determined, in consultation with the County Medical Officer, that the following Order is necessary for the protection of the public health. This Order shall apply to all unincorporated areas of San Miguel County, Colorado, and all incorporated (municipal) areas that do not have their own public health agency, to wit: Town of Telluride, Town of Mountain Village, Town of Norwood, Town of Ophir, and the Town of Sawpit, Colorado.

12. The intent of this Order is to ensure that the maximum number of people self-quarantine (showing no symptoms of sickness) or self-isolate (showing symptoms of sickness) in their places of residence to the maximum extent feasible, while enabling essential services to continue, to slow the spread of COVID-19 to the maximum extent possible. When people need to leave their places of residence, whether to obtain or perform vital services or to otherwise facilitate authorized activities necessary for continuity of social and commercial life, they should at all times and as reasonably as possible comply with Social Distancing Requirements as defined herein. All provisions of this Order should be interpreted to effectuate this intent. Failure to comply with any of the provisions of this Order constitutes an imminent threat and creates an immediate menace to public health.

**PLEASE READ THIS ORDER CAREFULLY.**

**WHILE WE ANTICIPATE COMPLIANCE, FAILURE TO COMPLY WITH THIS ORDER IS SUBJECT TO THE PENALTIES CONTAINED IN C.R.S. §§ 25-1-516 AND 18-1.3-501, INCLUDING A FINE OF UP TO FIVE THOUSAND (5,000) DOLLARS AND IMPRISONMENT IN THE COUNTY JAIL FOR UP TO EIGHTEEN MONTHS.**
