• Wrap up & Thank you!
Meeting Guidelines and Opportunities for Input

- Questions and comments taken at the end of the presentation (3 minutes per person)
- Please provide your name and address
- Written comments via comment forms
- Email comments via Project Website ([bit.ly//smcdvct](bit.ly//smcdvct))
- Email Comments to: dvct@sanmiguelcountyco.gov
Project History and Background

- Past Master Plans identified needed link between Down Valley and Telluride
- Challenges in this segment question feasibility
- MMOF funding awarded to study feasibility
- Consultant hired to study feasibility
Project Study Committee and Stakeholders

- San Miguel County Open Space Commission
- Town of Sawpit
- SMART
- Telluride Mountain Club
- San Miguel Bike Alliance
- Colorado Department of Transportation (CDOT)
- Bureau of Land Management (BLM)
Project Overview

- 3 Miles
- 5 Segments
Goals of the Feasibility Study

- Recommend a location for the trail
- Identify safety concerns
- Gather and consider public input
- Establish appropriate design features
- Identify potential impacts of the trail
- Estimate expected construction costs

Provide an understanding of the project to decide if funding for construction should be pursued.
Characteristics of the Proposed Trail

- Multi-Modal Options Fund (MMOF)
- Transportation and Recreation
- Accessibility (ADA)

- 8 feet wide (where possible)
- Firm, smooth and stable
- Safety barriers on road to improve safety
Project Considerations

- Locate trail in publicly-owned property (CDOT Right of Way or BLM)
- Maximize separation from road where possible
- Consider impacts to adjacent properties
- Work with property owners adjacent to proposed trail
Proposed Trail Location
Other Trail Locations Considered
Segment 4 Discussion
Segment 4 Discussion

- Extremely steep slope thorough segment
- May narrow trail as needed
Segment 4 Discussion
Segment 4 Discussion

- Trail is co-located with existing driveway.
- Will need to flatten out section to meet ADA
- Can ensure design impacts operations as little as possible
Next Steps and Timeline

1. Complete Feasibility Study (August 2022 – January 2023)
2. Trail Options to be Considered (February 2023)
3. Seek Funding (2023)
4. Final Design (?)
5. Construction (?)
